About Me

I am a computer Engineering student who has an interest in Web Development, Java development and DevOps. I build intelligent systems that simplify complexity, drive efficiency, and deliver measurable results.

When I'm not coding, I'm exploring the latest in AI, experimenting with new tools, or diving into datasets to uncover hidden patterns

PROJECTS

WEBSITE TO SHOWCASE HOTEL SERVICES :

- Focus on automating emails/SMS for project updates, approvals, and alerts. Use jsPDF library to generate receipt in pdf format Real-time booking features and smooth checkout process increase bookings Successfully

WATERLEVEL MEASUREMENT SYSTEM :

-It uses ultra sonic sensors to measure level of water inside container

EDUCATION

B.E. (COMPUTER ENGINEERING)

SGPA : 8.18

GES R.H.Sapat College of Engineering Nashik
2023-2027

Higher Secondary Education (Science)

Percentage : 71.56%

P.O.Nahata junior College,Bhusawal
2021-2023

SKILLS

- Languages : C++,JAVA
- Web Development : HTML5,CSS3,JavaScript(Basics)
- Platform : Visual Studio code,IntelliJ IDEA
- Tools : Git,GitHub,Junit,Spring,MySQL
- SoftSkills : Team collaboration,Adaptive,
